SUMMARY

25X1D 25X1D 25X1D 25X1D

The Beregovo Barracks and Supply Depot straddles the railroad in the south-central section of the town of Beregovo (Figure 1). The installation (Figures 2 and 3) contains one athletic field, two U-shaped buildings probably used for barracks and administration, 11 storage buildings, and one miscellaneous building. A wall encloses the installation, which reportedly contains tank troops and could be a staging base for troops deploying into and through the nearby satellite countries.

The two U-shaped buildings in Area D had been constructed before [REDACTED] but the motor park did not appear until [REDACTED] and the exercise track was not discernible until [REDACTED]. Three buildings on the west side of Area E are visible on photography of [REDACTED] but the 10 storage buildings to the east did not appear until [REDACTED].

The installation was covered by [REDACTED] KEY-HOLE missions between [REDACTED]
